Nuance Releases OmniPage 18, Extending its Lead in Document Conversion and OCR Software

Outpaces All Others with First Ever Scan to Cloud Connectivity, Innovative PDF eDiscovery Conversion – and a 67% Increase in Document Conversion Accuracy

LONDON, UK - 18 May, 2011 – Nuance Communications, Inc. (NASDAQ: NUAN), a leading provider of speech and imaging solutions, today introduced OmniPage® 18, the new release of the world’s best-selling and most accurate document conversion and scanning solution for Microsoft® Windows®. OmniPage 18 extends Nuance’s lead in the industry with first ever scan to cloud capabilities and innovative PDF eDiscovery conversion.

OmniPage 18 is a significant and valuable upgrade, delivering a wide range of innovations and enhancements focused on making scanning and PDF conversion even more productive and powerful. This release introduces a number of innovations including the Nuance Cloud Connector, which allows users to directly open, save and convert documents in Google Docs, Box.net, Windows SkyDrive, and over 20 additional cloud services. The Nuance Cloud Connector also allows users to automatically scan converted documents to those same cloud environments, eliminating cumbersome login and upload steps.

“OmniPage 18 was designed with a strong focus on user input, resulting in a product with the highest levels of quality and accuracy ever,” said Robert Weideman, General Manager and Senior Vice President for the Nuance Document Imaging Division. “With over 70 percent of OmniPage customers already using document cloud services, this release brings the power and value of OCR and scanning to a growing mobile and cloud-connected world.”

OmniPage 18 also delivers greater speed and convenience than ever before. OmniPage 18 saves users 15 minutes or more per page, compared to manually re-creating a document – translating into an hour of time saved for a simple four page document. In addition, OmniPage 18 increases its PDF conversion speed, delivering 30 percent faster processing for multi-page PDF files, and includes new scanner enhancement tools (SET) that use automatic image correction to improve the quality of poorly scanned images. For example, whiteboard content can be captured using a mobile phone camera, with the image enhanced for readability using OmniPage 18.

Another first for OmniPage 18 is its innovative PDF conversion capability. Where other products can destroy annotation information as they make scanned PDF files searchable, OmniPage 18 includes the eDiscovery Assistant™, which creates a more optimised searchable PDF while preserving sticky notes and annotations within the PDF. The result delivers exactly what users want – all the existing PDF annotations are saved, and they have the ability to search all the scanned content in the PDF. The eDiscovery Assistant also supports batch conversion, making OmniPage an invaluable tool for

those working with contracts, document revisions, HR materials, as well as scanned financial and tax information.

OmniPage 18: No. 1 in Scanning and Document Conversion

Key capabilities and benefits of Nuance OmniPage 18:

- **The most accurate is now even better.** OmniPage 18 delivers up to a 67 percent increase in layout accuracy and an 18 percent character accuracy improvement for turning paper into editable digital documents.
- **Perfect formatting.** Converted documents look like the original – complete with columns, tables, bullets and graphics – and are easier to edit than ever before.
- **Improved organisation.** OmniPage includes Nuance PaperPort software which helps users organise, view and find over 150 document and photo formats. It also includes Nuance PDF Create to create 100 percent industry-standard PDF files.
- **Mobile document capture.** Use images from iPhone®, iPad®, or a digital camera and convert them into a readable format for mobile devices and electronic book readers.
- **Convert documents in the cloud.** Convert documents stored in Windows Live SkyDrive, GoogleDocs, Evernote, Dropbox, and many more. Includes the Nuance Cloud Connector powered by Gladinet.
- **Complete forms processing.** Convert paper forms to fillable forms and distribute electronically. OmniPage can collect data from PDF or paper forms and export to a spreadsheet or database compliant format.
- **Microsoft SharePoint and DMS connectivity.** Features new support for Open Text Hummingbird Connector, Autonomy-Interwoven iManage Connector, and support for Microsoft SharePoint connectivity.
- **Built-in automatic redaction and highlight.** Redact or black out confidential text or quickly locate information with highlights. OmniPage can recognise and automatically mark up text based on a list of key words.
- **Language recognition for over 120 languages.** Process, edit and store documents from anywhere in the world. Now supports Chinese, Japanese and Korean languages.

Pricing and Availability

OmniPage 18 and OmniPage 18 are available through Nuance's global network of reseller partners. OmniPage 18 is £79.99 and OmniPage 18 is £299.99 for individual users, with volume discounts available through the Nuance Open License Program. Upgrade pricing and support products are also available.
